Nature Publishing Index - 2012 Global Top 200

 Like Like  Tweet 588

These rankings are based on the number¹ of papers that were published in 2012 from the institutions² listed below. These rankings only include primary research papers that were published as "Articles, Letters and Brief Communications" in *Nature* and/or Nature monthly research journals.

To view the list of articles from an institution click on the number in the right hand column.

Research Articles

Institution	CC ³	Articles ⁴
1. Harvard University, USA	150.25	369
2. Stanford University, USA	76.34	161
3. + Max Planck Society, Germany	64.31	186
4. Massachusetts Institute of Technology (MIT), USA	60.39	199
5. French National Centre for Scientific Research (CNRS), France	45.91	246
6. + National Institutes of Health (NIH), USA	43.82	143
7. University of Washington, USA	40.97	102
8. University of Cambridge, UK	39.8	137
9. The University of Tokyo, Japan	39.72	116
10. Swiss Federal Institute of Technology Zurich, Switzerland	39.28	72
11. University of California Berkeley, USA	38.23	98
12. + Chinese Academy of Sciences (CAS), China	37.88	91
13. University of California San Diego (UCSD), USA	37.44	95
14. University of Oxford, UK	36.97	131
15. Columbia University in the City of New York, USA	34.76	89
16. Yale University, USA	34.46	82
17. University of California San Francisco (UCSF), USA	33.74	95
18. The Johns Hopkins University, USA	32.82	94
19. + Helmholtz Association of German Research Centres, Germany	27.3	130
20. University of California Los Angeles (UCLA), USA	26.97	82
21. University of Michigan, USA	25.89	76
22. Northwestern University, USA	25.34	54
23. University of Chicago, USA	24.88	54
24. University of Illinois, USA	24.49	55
25. California Institute of Technology, USA	24.28	63
26. Kyoto University, Japan	22.47	55
27. The Scripps Research Institute, USA	22.2	44
28. University of Pennsylvania, USA	21.24	58
29. Washington University in St. Louis, USA	20.85	72

184. Uppsala University, Sweden	4.25	25
185. University of Waterloo, Canada	4.23	8
186. Fred Hutchinson Cancer Research Center (FHRC), USA	4.21	23
187. Carnegie Institution of Washington (CIW), USA	4.21	14
188. Newcastle University, UK	4.2	17
189. Ecole Normale Suprieure (ENS), France	4.17	28
190. National Institute of Standards and Technology (NIST), USA	4.16	20
191. University of Birmingham, UK	4.16	22
192. Joseph Fourier University (UJF), France	4.14	29
193. Russian Academy of Sciences (RAS), Russia	4.1	21
194. Aix-Marseille University, France	4.08	27
195. Korea Advanced Institute of Science & Technology (KAIST), Korea	4.03	15
196. Research Institute of Molecular Pathology (IMP), Austria	4	7
197. Keio University, Japan	3.96	19
198. Woods Hole Oceanographic Institution (WHOI), USA	3.92	12
199. Fudan University, China	3.9	13
200. James Cook University, Australia	3.89	12

1. These rankings are based upon primary research papers published in the Articles, Letters and Brief Communications sections of *Nature* and Nature monthly research journals in 2012 (excluding journals from scientific societies).
2. For some organizations such as CNRS, the Max Planck Society and the Chinese Academy Sciences that include numerous research entities we have aggregated results. On the other hand, we have, for example, chosen not to group the 10 universities of the University of California System and have presented each of them as distinct research entities. But, if they were grouped, the System would rank number one with an aggregate corrected count of well over 100 papers.
3. Represents the corrected count by calculating a corrected point total for each paper from a given country or institution as a decimal fraction of one (up to a maximum of 1), by taking into account the percentage of authors of the paper from that country or institution. All authors are assumed to contribute equally to corrected count, and an author with multiple affiliations is assumed to be divided equally among those affiliations. When an author gives a "present address", "permanent address" or "current address" that affiliation is assumed to not be involved in that author's contribution to the paper and is not included in the corrected count.
4. Represents the total number of articles that list authors from a given country or institution, regardless of the percentage of authors of the paper from that country or institution.
5. Howard Hughes Medical Institute (HHMI), provides funding to universities and other research organizations throughout the United States. In addition they operate the Janelia Farm Research Campus in Virginia.
6. Japan Science and Technology Agency (JST), a Japanese government funding organization that is mentioned in the affiliations of many papers from Japan, is not counted as an institution and is not listed in the Index, however they were affiliated with 89 papers in 2012.

Feedback and comments regarding the Nature Publishing Index can be sent to index-feedback@natureasia.com.
